## Defence news

### Naval Developments

The Indian Navy commissioned two new Project 17A multi-mission stealth frigates, INS Udaygiri and INS Himgiri, in Visakhapatnam. This is the first time two warships built at different shipyards (Mazagon Dock Shipbuilders and Garden Reach Shipbuilders) were commissioned simultaneously. These frigates, with around 75% indigenous content, are designed to enhance the Navy's combat readiness and are part of the "Aatmanirbhar Bharat" (self-reliant India) initiative.

The Indian Navy is also in discussions with Germany's ThyssenKrupp Marine Systems (TKMS) to integrate the indigenously developed Submarine-Launched Cruise Missile (SLCM) with a 500-km range into the proposed U-214NG submarines under the Project 75-India program.

### Strategic & Diplomatic Engagements

The Indian Army is hosting a two-day tri-service seminar called RAN SAMWAD-2025 in Madhya Pradesh. The event, which brings together military leaders, defence experts, and industry professionals, focuses on sharing operational insights from modern battlefields and boosting joint warfighting capabilities. The seminar will be inaugurated by Chief of Defence Staff General Anil Chauhan, with Defence Minister Rajnath Singh scheduled to deliver the plenary address.

Chief of Integrated Defence Staff Air Marshal Ashutosh Dixit is attending the Annual Chiefs of Defence Conference in Thailand, which focuses on enhancing military-to-military engagement and cooperation on issues like maritime security and counter-terrorism. Additionally, India and Algeria have strengthened defence ties during the Indian Army Chief's official visit to the North African country.

### Other Key Updates

Defence Minister Rajnath Singh inaugurated the Adarsh Defence and Sports Academy in Jodhpur, Rajasthan, with a focus on training students for the armed forces and national-level sports.

The Indian Army has commenced the Agniveer Recruitment Rally in Erode, Tamil Nadu, for candidates from 11 districts.

In a move towards self-reliance, DRDO's Instruments Research and Development Establishment (IRDE) is set to manufacture advanced semiconductor infrared detectors in Lucknow, a technology currently imported from countries like Israel and France.
