#### PASSAGE

Why is it that the CRP, BSF and the Army give a better account of themselves than the state police? It is the structure of the state police that needs to be looked \_\_\_\_ (1) \_\_\_\_. In a district, or city, where there is a separate police force, a majority of the policemen are \_\_\_\_ (2) \_\_\_\_ in police stations. The police station staff is often overextended and no \_\_\_\_ (3) \_\_\_\_ is available at that level. It is the state force that has to be called \_\_\_\_ (4) \_\_\_\_ But it takes time to \_\_\_\_ (5) \_\_\_\_ forces. If the law and order situation \_\_\_\_ (6) \_\_\_\_ simultaneously at many places, there is manpower \_\_\_\_ (7) \_\_\_\_ Thus once rioting breaks \_\_\_\_ (8) \_\_\_\_, it takes time to bring it under control so that there is a time \_\_\_\_ (9) \_\_\_\_ between the first incident and the appearance of the adequate force to \_\_\_\_ (10) \_\_\_\_ the situation. The public hue and cry about the delayed arrival of the police force is not unjustified.

#### PASSAGE

In recent years, the banking industry has been undergoing rapid changes, reflecting a number of \_\_\_\_ (1) \_\_\_\_ developments. The most significant has been advances in communication and information technology. Which have \_\_\_\_ (2) \_\_\_\_ and broadened the \_\_\_\_ (3) \_\_\_\_ of financial information while lowering the costs of many financial activities. A second key \_\_\_\_ (4) \_\_\_\_ for change has been the increasing competition among a broad \_\_\_\_ (5) \_\_\_\_ of domestic and foreign institutions in providing banking and \_\_\_\_ (6) \_\_\_\_ financial services. Third, financial activity has become larger relative to overall economic activity in most economies. This has meant that any \_\_\_\_ (7) \_\_\_\_ of the financial markets or financial infrastructure has broader economic \_\_\_\_ (8) \_\_\_\_ than might have been the case \_\_\_\_ (9) \_\_\_\_\_. These developments have \_\_\_\_ (10) \_\_\_\_ consequences for the institutional and

PASSAGE

Paris – Nearly two years have passed since France's then-foreign minister, Laurent Fabius, struck his gavel and declared: "The Paris agreement for the climate is \_\_\_\_\_ (1) \_\_\_\_\_ accepted." Next week, President Emmanuel Macron and the French government will host world leaders and non-state actors for the One Planet Summit. The purpose of this \_\_\_\_\_ (2) \_\_\_\_\_ protecting is to celebrate climate gains made since 2015, and to boost political and economic support for meeting the goals and targets of the Paris agreement. The Paris climate agreement, a historic feat of diplomacy that \_\_\_\_\_ (3) \_\_\_\_\_ adieus in a new era of international climate \_\_\_\_\_ (4) \_\_\_\_\_ infringement, was facilitated by a number of political and social forces. One of the most \_\_\_\_\_ (5) \_\_\_\_\_ influential of these was a group of more than 100 countries known as the "high \_\_\_\_\_ (6) \_\_\_\_\_ satisfaction coalition," which helped finalize the deal in the waning days of the 2015 United Nations Climate Change Conference (COP21). This \_\_\_\_\_ (7) \_\_\_\_\_ conforming coalition of leaders – from the richest countries to the most \_\_\_\_\_ (8) \_\_\_\_\_ conserve Pacific island states – broke a political \_\_\_\_\_ (9) \_\_\_\_\_ deadlock that had impeded climate progress for years, if not decades. As we reflect on that success, one thing is abundantly clear: the nea

for ambitious coalitions has returned. Strong global leadership on climate change scored a diplomatic victory two years ago, and today, new economic and political alliances are needed to turn those \_\_\_\_ (10) \_\_\_\_ assignments into action.
