

Question : 1

The movie 'The Wizard of Oz' will help improve business conversation.

- a) If the inference is definitely true, i.e., it properly follows from the statement of facts given
- b) If the inference is probably true though not definitely true in the light of the facts given
- c) If the data are inadequate i.e., from the facts given you cannot say whether the inference is likely to be true or false
- d) If the inference is probably false though not definitely false in the light of the facts given
- e) If the inference is definitely false i.e., it cannot possibly be drawn from the facts given or it contradicts the given facts

Question : 2

For most, if they watch a movie more than once, different aspects in a different order, like special effects, photography, story, music etc., would impress in a better way.

- a) If the inference is definitely true, i.e., it properly follows from the statement of facts given
- b) If the inference is probably true though not definitely true in the light of the facts given
- c) If the data are inadequate i.e., from the facts given you cannot say whether the inference is likely to be true or false
- d) If the inference is probably false though not definitely false in the light of the facts given
- e) If the inference is definitely false i.e., it cannot possibly be drawn from the facts given or it contradicts the given facts

Question : 3

The tips are given for understanding business conversation.

- a) If the inference is definitely true, i.e., it properly follows from the statement of facts given
- b) If the inference is probably true though not definitely true in the light of the facts given

- c) If the data are inadequate i.e., from the facts given you cannot say whether the inference is likely to be true or false
- d) If the inference is probably false though not definitely false in the light of the facts given
- e) If the inference is definitely false i.e., it cannot possibly be drawn from the facts given or it contradicts the given facts

Question : 4

The advice is being given to the sales team.

- a) If the inference is definitely true, i.e., it properly follows from the statement of facts given
- b) If the inference is probably true though not definitely true in the light of the facts given
- c) If the data are inadequate i.e., from the facts given you cannot say whether the inference is likely to be true or false
- d) If the inference is probably false though not definitely false in the light of the facts given
- e) If the inference is definitely false i.e., it cannot possibly be drawn from the facts given or it contradicts the given facts

Question : 5

The author watches most movies more than twice.

- a) If the inference is definitely true, i.e., it properly follows from the statement of facts given
- b) If the inference is probably true though not definitely true in the light of the facts given
- c) If the data are inadequate i.e., from the facts given you cannot say whether the inference is likely to be true or false
- d) If the inference is probably false though not definitely false in the light of the facts given
- e) If the inference is definitely false i.e., it cannot possibly be drawn from the facts given or it contradicts the given facts

Question : 6

Many Indians, who below the poverty line, get necessary amount of proteins.

- a) If the inference is definitely true, i.e., it properly follows from the statement of facts given
- b) If the inference is probably true though not definitely true in the light of the facts given
- c) If the data are inadequate i.e., from the facts given you cannot say whether the inference is likely to be true or false
- d) If the inference is probably false though not definitely false in the light of the facts given
- e) If the inference is definitely false i.e., it cannot possibly be drawn from the facts given or it contradicts the given facts

Question : 7

People living above the poverty line are less likely to suffer from infections.

- a) If the inference is definitely true, i.e., it properly follows from the statement of facts given
- b) If the inference is probably true though not definitely true in the light of the facts given
- c) If the data are inadequate i.e., from the facts given you cannot say whether the inference is likely to be true or false
- d) If the inference is probably false though not definitely false in the light of the facts given
- e) If the inference is definitely false i.e., it cannot possibly be drawn from the facts given or it contradicts the given facts

Question : 8

India's poverty alleviation programmes can only succeed after reaching agreement about the poverty line.

- a) If the inference is definitely true, i.e., it properly follows from the statement of facts given
- b) If the inference is probably true though not definitely true in the light of the facts given

- c) If the data are inadequate i.e., from the facts given you cannot say whether the inference is likely to be true or false
- d) If the inference is probably false though not definitely false in the light of the facts given
- e) If the inference is definitely false i.e., it cannot possibly be drawn from the facts given or it contradicts the given facts

Question : 9

People in urban areas are less physically weak compared to people in rural areas.

- a) If the inference is definitely true, i.e., it properly follows from the statement of facts given
- b) If the inference is probably true though not definitely true in the light of the facts given
- c) If the data are inadequate i.e., from the facts given you cannot say whether the inference is likely to be true or false
- d) If the inference is probably false though not definitely false in the light of the facts given
- e) If the inference is definitely false i.e., it cannot possibly be drawn from the facts given or it contradicts the given facts

Question : 10

In other countries, there is no controversy about defining the poverty line.

- a) If the inference is definitely true, i.e., it properly follows from the statement of facts given
- b) If the inference is probably true though not definitely true in the light of the facts given
- c) If the data are inadequate i.e., from the facts given you cannot say whether the inference is likely to be true or false
- d) If the inference is probably false though not definitely false in the light of the facts given
- e) If the inference is definitely false i.e., it cannot possibly be drawn from the facts given or it contradicts the given facts

Question : 11

Some countries in the Western World have fixed a price band for steel products in their domestic markets.

- a) If the inference is definitely true, i.e., it properly follows from the statement of facts given
- b) If the inference is probably true though not definitely true in the light of the facts given
- c) If the data are inadequate i.e., from the facts given you cannot say whether the inference is likely to be true or false
- d) If the inference is probably false though not definitely false in the light of the facts given
- e) If the inference is definitely false i.e., it cannot possibly be drawn from the facts given or it contradicts the given facts

Question : 12

Government move to fix a price band of steel prices may adversely affect the steel manufacturing units in India.

- a) If the inference is definitely true, i.e., it properly follows from the statement of facts given
- b) If the inference is probably true though not definitely true in the light of the facts given
- c) If the data are inadequate i.e., from the facts given you cannot say whether the inference is likely to be true or false
- d) If the inference is probably false though not definitely false in the light of the facts given
- e) If the inference is definitely false i.e., it cannot possibly be drawn from the facts given or it contradicts the given facts

Question : 13

Price of steel is an integral part of the Wholesale Price Index (WPI) of India.

- a) If the inference is definitely true, i.e., it properly follows from the statement of facts given
- b) If the inference is probably true though not definitely true in the light of the facts given

- c) If the data are inadequate i.e., from the facts given you cannot say whether the inference is likely to be true or false
- d) If the inference is probably false though not definitely false in the light of the facts given
- e) If the inference is definitely false i.e., it cannot possibly be drawn from the facts given or it contradicts the given facts

Question : 14

There has been a decline in the rate of inflation in recent months in India.

- a) If the inference is definitely true, i.e., it properly follows from the statement of facts given
- b) If the inference is probably true though not definitely true in the light of the facts given
- c) If the data are inadequate i.e., from the facts given you cannot say whether the inference is likely to be true or false
- d) If the inference is probably false though not definitely false in the light of the facts given
- e) If the inference is definitely false i.e., it cannot possibly be drawn from the facts given or it contradicts the given facts

Question : 15

In the recent past, the increase in steel prices in the international market is much lower than that in the domestic market.

- a) If the inference is definitely true, i.e., it properly follows from the statement of facts given
- b) If the inference is probably true though not definitely true in the light of the facts given
- c) If the data are inadequate i.e., from the facts given you cannot say whether the inference is likely to be true or false
- d) If the inference is probably false though not definitely false in the light of the facts given
- e) If the inference is definitely false i.e., it cannot possibly be drawn from the facts given or it contradicts the given facts

Question : 16

Share of the services sector in India's GDP crossed the halfway mark in early 2000.

- a) If the inference is definitely true, i.e., it properly follows from the statement of facts given
- b) If the inference is probably true though not definitely true in the light of the facts given
- c) If the data are inadequate i.e., from the facts given you cannot say whether the inference is likely to be true or false
- d) If the inference is probably false though not definitely false in the light of the facts given
- e) If the inference is definitely false i.e., it cannot possibly be drawn from the facts given or it contradicts the given facts

Question : 17

India has now emerged as a high per capita income country.

- a) If the inference is definitely true, i.e., it properly follows from the statement of facts given
- b) If the inference is probably true though not definitely true in the light of the facts given
- c) If the data are inadequate i.e., from the facts given you cannot say whether the inference is likely to be true or false
- d) If the inference is probably false though not definitely false in the light of the facts given
- e) If the inference is definitely false i.e., it cannot possibly be drawn from the facts given or it contradicts the given facts

Question : 18

Growth in India's services sector post 2005 is more than 9%.

- a) If the inference is definitely true, i.e., it properly follows from the statement of facts given
- b) If the inference is probably true though not definitely true in the light of the facts given

c) If the data are inadequate i.e., from the facts given you cannot say whether the inference is likely to be true or false

- d) If the inference is probably false though not definitely false in the light of the facts given
- e) If the inference is definitely false i.e., it cannot possibly be drawn from the facts given or it contradicts the given facts

Question : 19

In early nineties, the share of services sector in GDP for low per capita income group of countries was about 40%.

- a) If the inference is definitely true, i.e., it properly follows from the statement of facts given
- b) If the inference is probably true though not definitely true in the light of the facts given
- c) If the data are inadequate i.e., from the facts given you cannot say whether the inference is likely to be true or false
- d) If the inference is probably false though not definitely false in the light of the facts given
- e) If the inference is definitely false i.e., it cannot possibly be drawn from the facts given or it contradicts the given facts

Question : 20

Less than half of the total workforce is engaged in the agricultural sector in India.

- a) If the inference is definitely true, i.e., it properly follows from the statement of facts given
- b) If the inference is probably true though not definitely true in the light of the facts given
- c) If the data are inadequate i.e., from the facts given you cannot say whether the inference is likely to be true or false
- d) If the inference is probably false though not definitely false in the light of the facts given
- e) If the inference is definitely false i.e., it cannot possibly be drawn from the facts given or it contradicts the given facts

Question : 21

An accepted way of measuring time is essential for the smooth functioning of society.

- a) If the statement is a Major Objective in making the decision; one of the goals sought by the decision-maker
- b) If the statement is a Major Factor in making the decision; an aspect of the problem, specifically mentioned in the passage, which fundamentally affects and/or determines the decision
- c) If the statement is a Minor Factor in making the decision; a less important element bearing on or affecting a Major Factor, rather than a Major Objective directly
- d) If the statement is a Major Assumption in making the decision; a projection or supposition arrived at by the decision maker before considering the factor and alternative

Question : 22

In modern society, we must make more time for our neighbour's.

- a) If the statement is a Major Objective in making the decision; one of the goals sought by the decision-maker
- b) If the statement is a Major Factor in making the decision; an aspect of the problem, specifically mentioned in the passage, which fundamentally affects and/or determines the decision
- c) If the statement is a Minor Factor in making the decision; a less important element bearing on or affecting a Major Factor, rather than a Major Objective directly
- d) If the statement is a Major Assumption in making the decision; a projection or supposition arrived at by the decision-maker before considering the factor and alternative

Question : 23

Society judges people by the time at which they conduct certain activities.

- a) If the statement is a Major Objective in making the decision; one of the goals sought by the decision-maker

- b) If the statement is a Major Factor in making the decision; an aspect of the problem, specifically mentioned in the passage, which fundamentally affects and/or determines the decision
- c) If the statement is a Minor Factor in making the decision; a less important element bearing on or affecting a Major Factor, rather than a Major Objective directly
- d) If the statement is a Major Assumption in making the decision; a projection or supposition arrived at by the decision-maker before considering the factor and alternative

Question : 24

The Phrase 'this tradition' in the passage refers to people's agreement on the measurement of time.

- a) If the statement is a Major Objective in making the decision; one of the goals sought by the decision-maker
- b) If the statement is a Major Factor in making the decision; an aspect of the problem, specifically mentioned in the passage, which fundamentally affects and/or determines the decision
- c) If the statement is a Minor Factor in making the decision; a less important element bearing on or affecting a Major Factor, rather than a Major Objective directly
- d) If the statement is a Major Assumption in making the decision; a projection or supposition arrived at by the decision-maker before considering the factor and alternative

Question : 25

Railroad supports precise time keeping.

- a) If the statement is a Major Objective in making the decision; one of the goals sought by the decision-maker
- b) If the statement is a Major Factor in making the decision; an aspect of the problem, specifically mentioned in the passage, which fundamentally affects and/or determines the decision
- c) If the statement is a Minor Factor in making the decision; a less important element bearing on or

affecting a Major Factor, rather than a Major Objective directly

d) If the statement is a Major Assumption in making the decision; a projection or supposition arrived at by the decision-maker before considering the factor and alternative

Question : 21

An accepted way of measuring time is essential for the smooth functioning of society.

a) If the statement is a Major Objective in making the decision; one of the goals sought by the decision-maker

b) If the statement is a Major Factor in making the decision; an aspect of the problem, specifically mentioned in the passage, which fundamentally affects and/or determines the decision

c) If the statement is a Minor Factor in making the decision; a less important element bearing on or affecting a Major Factor, rather than a Major Objective directly

d) If the statement is a Major Assumption in making the decision; a projection or supposition arrived at by the decision maker before considering the factor and alternative

Question : 22

In modern society, we must make more time for our neighbour's.

a) If the statement is a Major Objective in making the decision; one of the goals sought by the decision-maker

b) If the statement is a Major Factor in making the decision; an aspect of the problem, specifically mentioned in the passage, which fundamentally affects and/or determines the decision

c) If the statement is a Minor Factor in making the decision; a less important element bearing on or affecting a Major Factor, rather than a Major Objective directly

d) If the statement is a Major Assumption in making the decision; a projection or supposition arrived at by the decision-maker before considering the factor and alternative

Question : 23

Society judges people by the time at which they conduct certain activities.

a) If the statement is a Major Objective in making the decision; one of the goals sought by the decision-maker

b) If the statement is a Major Factor in making the decision; an aspect of the problem, specifically mentioned in the passage, which fundamentally affects and/or determines the decision

c) If the statement is a Minor Factor in making the decision; a less important element bearing on or affecting a Major Factor, rather than a Major Objective directly

d) If the statement is a Major Assumption in making the decision; a projection or supposition arrived at by the decision-maker before considering the factor and alternative

Question : 24

The Phrase 'this tradition' in the passage refers to people's agreement on the measurement of time.

a) If the statement is a Major Objective in making the decision; one of the goals sought by the decision-maker

b) If the statement is a Major Factor in making the decision; an aspect of the problem, specifically mentioned in the passage, which fundamentally affects and/or determines the decision

c) If the statement is a Minor Factor in making the decision; a less important element bearing on or affecting a Major Factor, rather than a Major Objective directly

d) If the statement is a Major Assumption in making the decision; a projection or supposition arrived at by the decision-maker before considering the factor and alternative

Question : 25

Railroad supports precise time keeping.

a) If the statement is a Major Objective in making the decision; one of the goals sought by the decision-maker

- b) If the statement is a Major Factor in making the decision; an aspect of the problem, specifically mentioned in the passage, which fundamentally affects and/or determines the decision
- c) If the statement is a Minor Factor in making the decision; a less important element bearing on or affecting a Major Factor, rather than a Major Objective directly
- d) If the statement is a Major Assumption in making the decision; a projection or supposition arrived at by the decision-maker before considering the factor and alternative
