- 1) Which of the following is the type of software that controls the internal operations in the computer?
 - a) Shareware
 - b) Public domain software
 - c) Application software
 - d) Operating system software
- 2) controls the way in which the computer system does function and provides a means by which users can interact with the computer
 - a) Operating system
 - b) Motherboard
 - c) Platform
 - d) Application software
- 3) A collection of programs that controls how your computer system runs and process information is called
 - a) Operating system
 - b) Computer
 - c) Office
 - d) Compiler
 - e) Interpreter
- 4) It is the program that manages the hardware of the computer system including the CPU, memory storage devices and input / output devices
 - a) Software
 - b) Operating system
 - c) Hardware
 - d) System software
- 5) An operating system is a /an
 - a) Accounting software
 - b) Application software
 - c) System software
 - d) Utility software
- 6) Which of the following is the correct reason to use an operating system?
 - a) To manage resources
 - b) To control the hardware
 - c) To provide an interface between the hardware and user
 - d) All of the above
- 7) The primary purpose of the Windows operating system is
 - a) To make the most efficient use of the computer hardware
 - b) To allow people to use the computer
 - c) To keep systems programmers employed
 - d) To make computers easier to use
- 8) Every computer has a(n), many also have
 - a) Operating system ; a client system
 - b) Operating system ; instruction sets
 - c) Application programs ; an operating system
 - d) Application programs ; a client system
 - e) Operating system ; application programs
- 9) Which of the following is / are function (s) of operating system?
 - a) User interface
 - b) File system manipulation
 - c) Resource allocation
 - d) All of the above
- 10) A program in execution is called
 - a) Process
 - b) Instruction
 - c) Procedure
 - d) Function
- 11) Memory utilisation factor shall be computed as
 - a) Memory in use / allocated memory
 - b) Memory in use / total memory connected
 - c) Memory allocated / free existing memory
 - d) Memory committed / total memory available

12) Which one of the following is not the function of operating system?

- a) Resource Management
- b) File Management
- c) Networking
- d) Processor Management

13) When a file contains instruction that can be carried out by the computer, it is often called a(n) file

- a) Data
- b) Information
- c) Executable
- d) Application

14) Grouping and processing all of a firm's transactions at one time, is called

- a) A database management system
- b) Batch processing
- c) A real time system
- d) On - time system

15) is used for very large files or where a fast response time is not critical. The files to be transmitted are gathered over a period and then send together as a batch

- a) Batch processing
- b) Online processing
- c) File processing
- d) Data processing

16) Which of the following system is a function of dedicated PCs?

- a) Meant for a single user
- b) Meant for the single task
- c) Deal with single software
- d) Deal with only editing

17) Windows operating system is and

- a) Multitasking , Multi user
- b) Multi user , Single tasking
- c) Single user, Multitasking
- d) Single tasking, Single user

18) Operating system that allows only one user to work on a computer at a time is known as

- a) Single user operating system
- b) Multi user operating system
- c) Single tasking operating system
- d) Multitasking operating system
- e) Real - time operating system

19) An operating system is said to be multi user, if

- a) More than one programs can run simultaneously
- b) More than one user can work simultaneously
- c) Either a or b
- d) None of the above

20) provides process and memory management services that allow two or more tasks, jobs or programs to run simultaneously

- a) Multitasking
- b) Multithreading
- c) Multiprocessing
- d) Multicomputing

21) Which of the following terms explains the execution of more than one file at the same on a single processor?

- a) Single tasking
- b) Multitasking
- c) Scheduling
- d) Multiprocessing

22) is a feature for scheduling and multi-programming to provide an economical interactive system of two or more users

- a) Time sharing

- b) Multisharing
- c) Time tracing
- d) Multiprocessing
- e) None of these

23) The simultaneously processing of two or more programs by multiple processors, is

- a) Multiprogramming
- b) Multitasking
- c) Time sharing
- d) Multiprocessing

24) Real time systems must have

- a) Pre - emptive kernels
- b) Non - Pre - emptive kernels
- c) Both a and b
- d) Either a or b

25) RTOS stands for

- a) Real Time Operating System
- b) Reliable Time Operating System
- c) Reboot Time Operating System
- d) None of the above

26) System running more than one processes concurrently are called

- a) Multiprocessing
- b) Multiprogramming
- c) Real time
- d) Batch processing

27) Which of the following refers to the means by which an OS or any other program interacts with the user?

- a) Program front - end
- b) Programming interface
- c) User login
- d) User interface
- e) User compatibility

28) The first graphical user interface was designed by

- a) Apple Inc
- b) Microsoft
- c) Xerox Corporation
- d) None of these

29) Which process refers to the starting up of a computer and the loading of the required parts of the operating system into the RAM?

- a) Swipping
- b) Booting
- c) Mapping
- d) Editing

30) Which process checks to ensure the components of the computer are operating and connected properly?

- a) Booting
- b) Processing
- c) Saving
- d) Editing

31) What happens when you boot up a PC?

- a) Portions of the operating system are copied from disk into memory
- b) Portions of the operating system are copied from memory into disk
- c) Portions of the operating system are compiled
- d) Portions of the operating system are emulated
- e) The OC gets switched off

32) What do you understand by the term booting?

- a) The processing of starting the computer from the power - off position
- b) Connecting computer of the electric switch
- c) Increasing the memory of the computer
- d) The process of shut down the computer
- e) None of the above

33) Restart the computer is called when computer is already ON

- a) Cold booting
- b) Warm booting
- c) Shut down
- d) Logging off

34) The first version of Unix was developed by

- a) Ken Thompson
- b) Presper Eckert
- c) J W Mauchly
- d) Herman Hollerith

35) UNIX operating system is generally known as

- a) Multi user operating system
- b) General application
- c) Single user operating system
- d) Single user application program

36) Which of the programming tool is UNIX?

- a) LINT
- b) KERNEL
- c) C - Shell
- d) None of these

37) In computers, what does Yosemite, Mavericks, Mountain Lion, Lion Snow, Leopard, Leopard, Tiger, Tiger Panther, Jaguar, Puma and Cheetah stand for?

- A. Versions of Mac OSX
 - B. Types of storage servers
 - C. Macintosh Clones
 - D. None of the above
- a) D b) A c) C d) B

38) Which of the following is an operating system?

- a) Linux
- b) Debugger
- c) Mozilla
- d) Google Chrome
- e) Intel 8085

39) Linux is a type of software

- a) Shareware
- b) Commercial
- c) Proprietary
- d) Open source

40) Which one of the following is not an operating system?

- a) Linux
- b) Unix
- c) Intel
- d) Windows

41) Who developed the operating system Linux started as a project by a student of Finland?

- a) Barbara Liskov
- b) Linus Torvalds
- c) Leonard m Adleman
- d) Leslie Lamport

42) Which of the following operating systems was first developed by Microsoft?

- a) Windows ME
- b) Windows NT
- c) Windows 97
- d) MS - DOS

43) Which one of the following file names is invalid in DOS?

- a) RIT. Bat
- b) LISTEN. Bin
- c) RLUA. Btt
- d) TALK. Bas
- e) None of these

44) Which one of the following DIR commands lists a group of files?

- a) DIR INVOICE. bas
- b) DIR RESCUE. bas
- c) DIR PAYROLL. bas
- d) DIR TOOL?. Bas
- e) None of these

45) 'DOS' floppy disk / operating system does not have

- a) A boot record
- b) A file allocation table
- c) A root directory
- d) A virtual memory
- e) All of these

46) Which file in MS - DOS contains internal commands that are loaded during booting process?

- a) CONFIG. sys
- b) MSDOS. sys
- c) BIOS. sys
- d) COMMAND. com

47) What is the name of the batch file that automatically run when MS – DOS is booted?

- a) Config. sys b) Config. bat
- c) Autoexe. sys d) Run. Bat

48) MS- DOS is usually supplied on a

- a) Hard disk b) Cartridge tape
- c) CD ROM d) Floppy disk

49) Which of the following is the main program of MS – DOS?

- a) Root record b) ID. sys
- c) MSDOS. sys d) Command. com

50) Which of the following operating systems is also known as single user operating system?

- a) Windows b) Linux
- c) Unix d) DOS

51) The main difference between Windows and DOS is the ability to

- a) Multitasking
- b) Speed up
- c) Run a program
- d) Run without power

52) '>' symbol in DOS commands is used to

- a) Compare two values
- b) Redirect input
- c) Redirect output
- d) Filter data

53) Usually, in MS – DOS, the primary hard disk drives has the drive letter

- a) A b) B c) C
- d) D e) None of these

54) Which of the following is not usual file extension in DOS?

- a) .exe b) .bat c) .0

d) .com

e) None of these

55) Which commands are automatically loaded into main memory?

- a) Internal b) External
- c) Viral d) Situational

56) Which type of commands in MS – DOS needs external files to perform their action?

- a) Internal commands
- b) External commands
- c) Batch commands
- d) Re - directories

57) Which one of the following DOS commands sends contents of the screen to an output device?

- a) BREAK b) DISK COPY
- c) MORE d) ASSIGN
- e) None of these

58) Which of the following is not an external command of DOS?

- a) LABEL
- b) FORMAT
- c) CHKDSK
- d) CLS

59) CHKDSK can be used to find

- a) Disk's bad portion
- b) Occupied space
- c) Free space
- d) All of these

60) While working with MS – DOS, which command transfers a specific file from one disk to another?

- a) Copy
- b) Disk copy
- c) Time

d) Rename

c) Display list of files and sub – directories

d) Copy files

61) DEL command is used to

- a) Delete files
- b) Delete directory
- c) Delete labels
- d) Both a and b

68) The DOS command, which cannot be executed with versions 1 and 2 is

- a) GRAPHICS
- b) FIND
- c) LABEL
- d) MODE
- e) None of these

62) This command is used to display a list of files and sub – directories that are in the directory you specify

- a) DER
- b) DIS
- c) DIR
- d) DAR

69) Which of the following is not an internal command of DOS?

- a) VER
- b) COPY
- c) FORMAT
- d) VOL

63) The purpose of DISKCOPY command is to

- a) Format the disk if it is not formatted a write operation is initiated on it
- b) Overwrite the existing contents of the destination disk as it copies the new information on it
- c) All of the above
- d) None of the above

70) Which one of the following is an MS – DOS external command?

- a) DIR
- b) COPY
- c) FORMAT
- d) PROMPT

64) Which command is used to delete file from a directory in DOS?

- a) REN
- b) DEL
- c) CD
- d) MD

71) A command, in DOS used to set a name to a disk is

- a) VOL
- b) REN
- c) LABEL
- d) CLS

65) In MS – DOS, which of the following commands is used to delete directory with all sub – directories and files?

- a) Delete
- b) Del
- c) Deltree
- d) Move

72) In DOS, the 'label' command is used to

- a) Create the label of disk
- b) Change the label of disk
- c) Remove the label of disk
- d) Both a and b

66) Which one of the following DOS command sends contents of the screen to an output device?

- a) BREAK
- b) DISK COPY
- b) MORE
- d) ASSIGN

73) Which among the following is not a mobile operating system?

- a) Android
- b) Safari
- c) Symbian
- d) iOS
- e) Black Berry

67) In DOS, the DIR command is used to

- a) Display content of a file
- b) Delete file
