51) If Raj was one-third as old as Rahim 5 years back and Raj is 17 years old now, How old is Rahim now?

- a) 36                      b) 40  
c) 41                      d) 48

52) Sushil was thrice as old as Snehal 6 years back. Sushil will be times as old as Snehal 6 years hence. How old is Snehal today ?

- a) 24                      b) 18  
c) 16                      d) 12

53) Six years ago, the ratio of the ages of Sumanta and Bipul was 6:5, Four years hence, the ratio of their ages will be 11:10. What is Bipul age at Present ?

- a) 10 years                      b) 14 years  
c) 16 years                      d) 12 years

54) The age of a person is thrice the total ages of his 2 daughters. 0.5 decades hence, his age will be twice of the total ages of his daughters. Then what is the fathers current age? ( 0.5 Decades = 5 Years )

- a) 35 years                      b) 47 years  
c) 40 years                      d) 45 years

55) Proportion of Rahanes age to Dhonis age is 4:3. Yuvaraj will be 26 years old after 6 years. What is the age of Dhoni now ?

- a) 15 years                      b) 12 years  
c) 19 years                      d) 17 years

56) A man is 24 years older than his son. In two years, his age will be twice the age of his son. The present age of his son is

- a) 22 years                      b) 20 years  
c) 21 years                      d) 24 years

57) The total age of A and B is 12 years more than the total age of B and C. C is how many years younger than A ?

- a) 12                      b) 13  
c) 14                      d) 15

58) Santanu's grandfather was 8 times older to her 16 years ago. He would be 3 times of her age 8 years from now. What was ratio of ages of Santanu and her grandfather 8 years ago.

- a) 11:54                      b) 11:51  
c) 11:50                      d) 11:53

59) The ages of X and Y are in the proportion of 6:5 and total of their ages is 44 years. The proportion of their ages after 8 years will be

- a) 8:7                      b) 6:3  
c) 3:6                      d) 9:5

60) Ten years ago A was half of B in age. If the ratio of their present ages is 3 : 4, what will be the total of their present ages

- a) 40                      b) 35  
c) 25                      d) 30

61) A person's present age is two-fifth of the age of his mother. After 8 years, he will be one-half of the age of his mother. How old is the mother at present

- a) 45                      b) 42  
c) 40                      d) 44

62) A father said his son , " I was as old as you are at present at the time of your birth. " If the father age is 38 now, the son age 5 years back was :

- a) 14                      b) 19  
c) 33                      d) 38

63) In 10 years, A will be twice as old as B was 10 years ago. If A is now 9 years older than B, the present age of B is :

- a) 19                      b) 29  
c) 39                      d) 49

64) The total age of A and B is 12 years more than the total age of B and C. C is how many years younger than A ?

- a) 12                      b) 13  
c) 14                      d) 15
