19) A. There was a huge crowd of buyers at various shopping outlets in the city.

B. Prices of most of the commodities have gone up substantially in the recent past.

- a) If statement A is the cause and statement B is its effect
- b) If statement B is the cause and Statement A is its effect
- c) If both statements are independent causes
- d) If both statements are effects of independent causes
- e) If both statements are effects of some common cause

20) A. This year, the Government has decided to procure food grains earlier than the stipulated date.

B. This year, the farmers have decided to sell their crops to private traders.

- a) If statement A is the cause and statement B is its effect
- b) If statement B is the cause and Statement A is its effect
- c) If both statements are independent causes
- d) If both statements are effects of independent causes
- e) If both statements are effects of some common cause

DIRECTIONS:

Below in each question are given two statements (A) and (B). These statements may be either independent causes or may be effects of independent causes. One of these statements may be the effect of the other statement.

Read both the statements and decide which of the following answer choice correctly depicts the relationship between these two statements.

Mark your answer from the below given choice;
If statement (A) is the cause and statement (B) is its effect.

If statement (B) is the cause and statement (A) is the effect.

If both the statements (A) and (B) are independent causes.

If both the statements (A) and (B) are effects of independent causes.

If both the statements (A) and (B) are effects of some common cause.

21) Statements (A):

Many seats in the private engineering colleges in the state have remained vacant this year.

Statements (B):

The government engineering colleges in the state could not accommodate all the students who sought admission this year.

- a) If statement (A) is the cause and statement (B) is its effect.
- b) If statement (B) is the cause and statement (A) is the effect.
- c) If both the statements (A) and (B) are independent causes.
- d) If both the statements (A) and (B) are effects of independent causes.
- e) If both the statements (A) and (B) are effects of some common cause.

22) Statements (A):

The conditions of most of the national highways are very bad.

Statements (B):

Govt has now sanctioned a huge amount of money to maintain the national highways.

- a) If statement (A) is the cause and statement (B) is its effect.
- b) If statement (B) is the cause and statement (A) is the effect.
- c) If both the statements (A) and (B) are independent causes.
