Directions (1-5): Read the following passage carefully and answer the questions given below them. Employees are indeed true assets of an organization. Managers need to know their employees well to expect them to contribute their level best and also to remain loyal towards the organization. Employees need to feel valued and important at the workplace for them to deliver their level best. Knowing employees well leads to a healthy work culture. Managers connect with their team members and employees tend to know each other better. No individual can work in an organization where people do not talk to each other. Human beings need people around to talk to and express their feelings. We spend the maximum part of our day at workplaces and it is essential for us to have friends here. Work becomes a mere source of burden when individuals are glued to their computers the whole day. Discussions and brainstorming sessions lead to innovative solutions and quick results. Knowing employees strengthens the relationship between employees and their Bosses. Being rude to employees will not only demotivate them but also make you an unpopular member within the organization. Call them by their names rather than addressing as "Mr/Ms" or "Hey", greet them with a smile and enquire what is going on in their personal lives once in a while and see the difference yourself. Trust me; you will be elated to see employees striving hard to accomplish assigned targets within the shortest possible time frame.

Conflicts and misunderstandings lead to no solutions. Fights over petty issues not only lead to frustration but also spoil the ambience at the workplace. Do not forget that we are not school going kids who would fight over small things. It is essential to behave as mature professionals. Encourage healthy communication at workplace where employees get an opportunity to interact with each other, discuss ideas and also gain from each other's expertise. Let them open up. Knowing each other well leads to

better understanding among employees and they seldom fight with each other, eventually leading to a healthy and positive work culture. It also leads to peace at the workplace. Knowing employees helps managers to understand how he can motivate his team members and use them to the best of their abilities. It helps you to understand which team member would fit into which particular role and which employee would not do justice to his work. Knowing employees helps you judge your subordinates well and hence there is no question of confusions at the workplace. There is seldom any overlapping of work and everyone knows what he/she is supposed to do. Individuals feel attached towards their organization and love coming to work.

Q1. Which of the following is/are the benefit(s) of conversation among people?

- (a) It makes people resolve their difficult tasks smoothly with the help of senior most colleagues
- (b) people spend most of their daytime sitting which causes many physical illnesses
- (c) talk at office place gives a boost to rapid outcomes and innovative solutions
- (d) it's a stress relief therapy by sharing the difficulties one faces in the organization
- (e) None of these

Q2. How the manager of the company can contribute to employees' best performance?

- (i) Employees' productivity can be increased by the manager's amicable nature
- (ii) Manager's interaction makes employees' loyal to the company
- (iii) Manager can introduce team members and employees to each other
- (a) only (ii)
- (b) only (iii)
- (c) Both (ii) and (iii)
- (d) Both (i) and (ii)
- (e) All of these

Q3. What is/are the impact(s) of personal interaction with employees sometimes?

- (a) It inspire the employee to get higher productivity in lesser time
- (b) it maintains harmony among the employees of the organization
- (c) personal interactions decrease the depression of employee
- (d) Only (a) and (b)**
- (e) All of these

Q4. What are the factors of healthy and positive culture in companies?

- (i) job security which secures employees' future too, motivates employees to work hard
- (ii) working environment where people can interact freely to know about each other
- (iii) a working culture with no disputes or hardly any conflicts and fights
- (a) All of these
- (b) only (iii)
- (c) Both (ii) and (iii)**
- (d) Both (i) and (ii)
- (e) None of these

Q5. How is it beneficial for managers to know their employees?

- (a) Overlapping of work can be avoided by allocating every employee their tasks
- (b) manager can take work from employees efficiently to full of their capacity
- (c) Manager can easily analyze the suitable position for every employee by knowing them
- (d) Both (a) and (c)
- (e) All of these**

Directions (6-12): Read the following passage carefully and answer the questions given below them.

The major issue of Environment & Urbanization focusing on rural-urban linkages. The first, which came out in 1998, described the reliance of many low-income households on both rural-based and

urban-based resources in constructing their livelihoods. But the majority of the papers also underlined the fact that this straddling of the rural-urban divide is usually ignored by policy makers, and that the rigid division between "rural" and "urban" on the part of sectoral strategies actually makes life more difficult for low-income groups. The papers in this issue show many reasons why it has become even less realistic for development specialists to separate into rural and urban camps. The notion of a "divide" has become a misleading metaphor, one that oversimplifies and even distorts the realities. As these papers demonstrate, the linkages and interactions have become an ever more **intensive** and important component of livelihoods and production systems in many areas – forming not so much a bridge over a divide as a complex web of connections in a landscape where much is neither "urban" nor "rural", but has features of both, especially in the areas around urban centres or along the roads out of such centres what can be termed the peri-urban interface.

In addition, much of the rural population depends on urban centres for access to secondary schools, post and telephones, credit, agricultural extension services, farm equipment, hospitals and government services. Of course, there are still conflicts between rural and urban interests. But there are also conflicts between many urban interests and the needs of most of the urban population. There are also significant synergies between many rural and urban interests. Some factors can be generalized as having a key role in the increase in the scale of rural-urban linkages. Decreasing incomes from farming, especially for smallscale producers who, because of a lack of land, water or capital, are unable to intensify and switch to higher value crops, means that increasing numbers of rural residents engage in non-farm activities that are often located in urban centres. For those who continue farming, direct access to markets is essential in the wake of the demise of

spardhaguru2022

Spardhaguru Current affairs

Spardhaguru1

SpardhaGuru

Spardha.guru

www.spardha.guru

parastatal marketing boards – and markets are also usually located in urban centres. Better access to markets can increase farming incomes and encourage shifts to higher value crops or livestock. Population growth and distribution patterns affect the availability of good agricultural land and can contribute to rural residents moving out of farming. With the expansion of urban centres, land uses change from agricultural to residential and industrial, and in the peri-urban interface these processes go hand in hand with transformations in the livelihoods of different groups – with the poorest often losing out.

Q6. As per the passage, what aggravates the problems of low-income group people?

- (a) Uniformity in policies which can't be applied on urban and rural together due to different conditions
- (b) Policymakers pursue only rural areas for forming policies which make urban people suffer
- (c) the sectoral strategies division between urban and rural which is usually overlooked by policymakers**
- (d) the urban-rural division which confines them to their particular area for employment
- (e) None of these

Q7. Which of the following is true about the peri-urban interface?

- (a) rural areas can be considered as peri-urban areas if they can provide full employment to inhabitants
- (b) the peri-urban interface constitutes the habitat of a diversity of populations from both urban and rural**
- (c) areas dominated by a single habitat especially by the urban population where rural can't survive
- (d) peri-urban has biotic communities at larger spatial scales which is a wealthier community
- (e) None of these

Q8. Which factor is responsible for linkage between rural and urban?

- (a) Developing urban areas provide assistance to rural who have suffered loss in agriculture
- (b) All of these
- (c) FMCG growth in the urban market has driven the rural market to urban sector
- (d) being unable to switch over to higher value crop, the small-scale farmers move to non-farming activities**
- in urban areas from rural areas.
- (e) None of these

Q9. What is/are the benefits to farmers of access to the urban markets?

- (a) farmers having direct access to the market can have the opportunity to increase their income
- (b) All of these
- (c) Farmers with higher income from the market can be able to switch higher value crops
- (d) Government provides warehouse storage for crops to farmers for avoiding spoil of crops
- (e) Both (a) and (c)**

Q10. What is/are the reason(s) for decreasing agriculture trend in urban areas?

- (a) Nowadays agriculture activity is looking down upon by the current young generations.
- (b) people nowadays opt for secure jobs rather than agriculture which depends on climate
- (c) mutation of agricultural land of urban into commercial use and households**
- (d) both (a) and (c)
- (e) None of these

Q11. Which of the following is true as per the information given in the passage?

- (i) Due to government policies, farmers' incomes are independent of access to market
- (ii) There is a conflict between urban population needs and urban interest
- (iii) Low-income groups depend on the urban and rural-based source of income
- (a) Both (ii) and (iii)**
- (b) Only (iii)

(a) only (i)- (iii)
(b) Only (v)- (iii)- (i)
(c) All of these
(d) Only (iii)- (ii)- (iv)
(e) Only (ii)- (v)

Directions (26-29): Read the given directions and answer the following questions.

Q26. The given sentence is divided in five parts in which sentence (C) is fixed as a third sentence.

Rearrange the remaining four parts in correct sequence to make sentence grammatically correct and contextually meaningful.

- (A) at present and predicting it's future
(B) The Bain report is a data-based prediction
(C) **anchored to the agricultural set-up**
(D) trajectories in another 20 years
(E) on agri-business scenarios,
(a) ABCDE
(b) EACBD
(c) DACBE
(d) BECAD
(e) EACDB

Q27. Which of the following parts does contain an error?

- (A) at present and predicting it's future

- (B) The Bain report is a data-based prediction
(C) **anchored to the agricultural set-up**
(D) trajectories in another 20 years
(E) on agri-business scenarios,
(a) E
(b) B
(c) A
(d) C
(e) D

Q28. The given sentence is divided in five parts in which sentence (A) is fixed as a first sentence. Rearrange the remaining four parts in correct sequence to make sentence grammatically correct and contextually meaningful.

- (A) **Banks are the core of the**
(B) it to go down
(C) credit pipe and allowing
(D) would be a problem.
(E) settlements system and the
(a) AECBD

- (b) AECDB
(c) ADCBE
(d) ACBED
(e) None of these

Q29. Which of the following parts does contain an error?

- (A) **Banks are the core of the**
(B) it to go down
(C) credit pipe and allowing
(D) would be a problem.
(E) settlements system and the
(a) E
(b) B
(c) A
(d) C
(e) D

Directions (30-32): In each of the following questions, two sentences are given. Five connectors are given in to connect two sentences. Find the

correct option to connect these two sentences without changing the intended meaning.

Q30. (i) The farmers are also willing to continue the protest indefinitely

(ii) Methods have come to the unfavorable notice of Supreme Court judges

- (a) thereafter it
- (b) since they
- (c) even as their
- (d) even after it
- (e) because it is

Q31. (i) Covering nearly 30% land surface of the earth, forests around the globe provide a wide variety of ecosystem services

(ii) Stabilize the climate, sequester carbon and regulate the water regime.

- (a) therefore it also
- (b) but it also
- (c) for them they
- (d) as long as
- (e) and they also

Q32. (i) The government's focus on cash transfer and other welfare schemes continues to draw the support of the electorate,

(ii) Issues of violence and corruption raised by the opposition did not strike a chord with them.

- (a) despite the
- (b) while the
- (c) in like matter
- (d) otherwise the
- (e) in this case

Q33. In the following question there are four statements in each question. Each sentence has one given word in bold. Find the word which is grammatically and contextually incorrect in any of four sentences. Mark (E) i.e. 'all are correct' if all the given words are grammatically and contextually correct.

(a) Many have identified how inadequate political will at city scales constrain developing sustainable cities

(b) The government's affidavit covers three different aspects of the caste census issue.

(c) The usual means of disposal of plastic waste involves incineration, land-filling and recycling.

(d) Pfizer trial showed the vaccine was safe and generated a robust antibody response.

(e) All are correct

Q34. In the following question there are four statements in each question. Each sentence has one given word in bold. Find the word which is grammatically and contextually incorrect in any of four sentences. Mark (E) i.e. 'all are correct' if all the given words are grammatically and contextually correct.

(a) The researchers are planning to collaborate with industry to take up technology in to a pilot scale

(b) The rationale of some of the new groups was unclear even when they were formed.

(c) Two new smog towers have been recently inaugurated in Delhi

(d) Indian cities have often been signaled out for not doing enough on climate change

(e) All are correct

Q35. In the following question there are four statements in each question. Each sentence has one given word in bold. Find the word which is grammatically and contextually incorrect in any of four sentences. Mark (E) i.e. 'all are correct' if all the given words are grammatically and contextually correct.

(a) The prisoners held a hurried conference and quick as thought decided to make a bold bid for liberty.

(b) Trade Minister is confident that the stumbling blocks to free trade agreement can be surpassed as negotiations kick off afresh.

(c) Nature-based solutions have demonstrated how **restoring** ecosystem health can sustain human systems as well.

(d) Key aspect **inherent** in transforming cities is focusing on changing behaviours and lifestyles.

(e) All are correct

Q36. In the following question there are four statements in each question. Each sentence has one given word in bold. Find the word which is grammatically and contextually incorrect in any of four sentences. Mark (E) i.e. 'all are correct' if all the given words are grammatically and contextually correct.

(a) The obvious **focal** point in Japanese foreign policy going forward will be Japan-China relations.

(b) The DoT has amended license norms to **rationalize** the interest rate for delayed payment of licence fees

(c) Dependence on forests of the global human population has put eminence pressure on ecosystems

(d) Though India's increasing economic growth is helping to eliminate poverty, there is continued **degradation** and a growing scarcity of natural resources.

(e) All are correct

Directions (37-40): Read the following passage carefully and answer the questions given below them.

In this country, there are more than 40 million subscribers who rely on their cellular phones to conduct their business or just talk to friends and family. With the increase of mobile phone users, dangers to safety, while talking while one is driving have also increased. Everyday, there are accidents when a person using mobile while he is driving have also increased. Every day, there are accidents when a person while talking

on cell phone could not pay attention to road in front of him and was injured himself or injured others or both. The rise in phone related accidents is very serious, thought provoking and a danger to all concerned. When one is driving and talking on his cell phone, his or her attention is naturally diverted. Talking on mobile phones affect a person in several ways. For example, the emotional stress involved in a conversation can lead to lessened awareness of what is happening on the road. Having to dial phone numbers and answering calls takes one's attention from the road. There are so many good uses of mobile phones. This is an established fact which cannot be denied but along with this truth, so many accidents are taking place everyday, when people were talking and driving. This fact also cannot be denied. No law, no committee, no state or government can stop this danger unless people wake up and come to realize that for a little convenience, they are endangering themselves and others. If a very important call is ringing or they have an important call to make, they can easily stop, finish the call and start again. **No law or fine can make them realize this fact. They have to take care of their safety and the safety of others. It is no use crying over the spilt milk.**

Q37. Which of the following is the reason for the diversion of attention while driving and talking?

(a) a sudden stop by traffic police on road causes disbalance of the vehicle which results in an accident

(b) Some common causes of distractions are dialing numbers and getting involvement in emotional stress.

(c) Drink and drive is the most common cause of the accident because a person lose consciousness

(d) All of these

(e) None of these

Q38. As per the passage, what is the importance of cell phones in our lives?

Q78. Cost price of article A is Rs.X+150 and cost price of article B is Rs.X-150. Article A sold at loss of 20% and article B sold at profit of 25%. If the selling price of article B is Rs.750 more than that of article A. Find the cost price of B.

- (a) Rs.2500
- (b) Rs.2200**
- (c) Rs.1850
- (d) Rs.2750
- (e) None of these

Q79. A mixture contains 165 liters milk and X liters water. When X liter milk and 120-liter water added to mixture the respective ratio becomes 5: 4. What will the ratio of (X+30) liter milk and (X+15) liter water.

- (a) 3: 2
- (b) 5: 3
- (c) 2: 1**
- (d) 4: 3
- (e) None of these

Q105. What is the sum of the numbers which is 3rd from the left in Step III and 4th from the right in the final step?

- (a) 447
- (b) 454**
- (c) 443
- (d) 466
- (e) None of these

Q106. Which of the following element is 3rd from the left in Step IV?

- (a) 9
- (b) 13
- (c) 7
- (d) 8**
- (e) 20

Q107. How many steps required to complete the arrangement?

- (a) Four
- (b) Six
- (c) Five**
- (d) Seven
- (e) None of these

Q108. Which of the following step found "776 440 553" in the same manner?

- (a) Step III
- (b) Step II**
- (c) Step V
- (d) Step IV
- (e) Step VI

Q109. Which of the following is the penultimate step?

- (a) 9 8 7 13 20
- (b) 18 14 24 26 60
- (c) 8 7 9 13 20
- (d) 9 7 8 20 13
- (e) None of these**

Directions (110-114): In each question below some statements are given followed by three conclusions

numbered I, II and III. You have to take the given statements to be true even if they seem to be at variance with commonly known facts and then decide which of the given conclusions logically follows from the given statements, disregarding commonly known facts. Give answer

Q110. Statements:

Only a few Desk are Furniture.
All Furniture are Wood.
Only few Cupboard are Wood.
Only Cupboard is Table. No Desk is Cupboard.

Conclusion:

- I. All Cupboard being Wood is a possibility.
- II. Some Desk can never be Furniture.
- III. Some Wood which are Cupboard are not Desk.
- (a) If only conclusion I follows.
- (b) If both conclusion I and II follows.
- (c) If all conclusion I, II and III follows.
- (d) None follows.
- (e) If both conclusions II and III follow.**

Q111. Statements:

All Peony are Orchid.
All Orchid are Aster.
No Tulips are Orchid.
Only a few Orchid are Daisy.

Conclusion:

- I. Some Peony are not Tulips.
- II. All Daisy being Orchid is a possibility.
- III. All Tulips being Aster is a possibility.
- (a) If only conclusion II follows.
- (b) If both conclusion I and II follows.
- (c) If all conclusion I, II and III follows.**
- (d) None follows.
- (e) If both conclusions II and III follow.

Q112. Statements:

Only a few Pen are Mouse.
All Pen are Paper.
Only a few Drawer are Paper.
No Silicon is Drawer.

Conclusion:

Spardhaguru1

SpardhaGuru

Spardha.guru

www.spardha.guru

- I. Some Mouse are not Drawer.
II. Some Paper are not Silicon.
III. All Drawer are not Paper is a possibility.

(a) If only conclusion II follows.

- (b) If both conclusion I and II follows.
(c) If all conclusion I, II and III follows.
(d) If only conclusion I follows.
(e) If both conclusions II and III follow.

Q113. Statements:

- All Online are Zip.
Only a few Folder are Zip.
No Folder is Flash.
No Flash is Pen drive.

Conclusion:

- I. Some Zip are not Flash.
II. All Flash being Online is a possibility.
III. Some Zip are not Pen drive.
(a) If only conclusion I follows.
(b) If only conclusion III follows.
(c) If both conclusion I and II follows.
(d) If both conclusions II and III follow.
(e) None of these

Q114. Statements:

- All Cherry are Kiwi.
Only a few Plum are Cherry.
Some Plum are not Lychee.
Only a few Peach are Lychee.
No Cherry is Lychee.

Conclusion:

- I. Some Peach neither Cherry nor Plum.
II. Some Plum are not Lychee.
III. All Lychee being Peach is a possibility.
(a) If only conclusion II follows.
(b) If both conclusion I and II follows.
(c) If all conclusion I, II and III follows.
(d) None of these
(e) If both conclusions II and III follow.

Q115. Statement:

Start to think of travelling by train for a holiday. A train journey can give one a better view of places on

the way which an air journey cannot give. You can walk around whenever you want, meet other travelers and locals, relax and watch the landscape go peacefully by. Train travel is both a beautiful and affordable way to see the country, and no trip is more scenic than the trip by trains.

Conclusions:

- I. While going for a holiday, people want to enjoy the view of the places on the way.
II. People should not travel by air when they are going for a holiday.

Which of the following can be concluded from the given statement?

- (a) Only I follows
(b) Only II follows
(c) Both I and II follow
(d) Neither I nor II follows
(e) None of these

Q116. Statement:

Through interest rate subvention scheme government of India will provide Crop loan to farmers at just 4%.

Which of the following can be concluded from the above statement?

- (a) Financial condition of farmers will improve
(b) Repayment of loan will be done timely by the farmers.
(c) Only (A) and (D)
(d) Farmers will have to pay less interest on their loan.
(e) None of these

Directions (117-120): In the following questions, the symbols @, #, %, \$ and © are used with the following meaning as illustrated below-

'P#Q' means 'Q is neither greater than nor equal to P'

'P©Q' means 'Q is neither equal to nor smaller than P'

'P%Q' means 'Q is neither smaller than nor greater than P'

4. Q throw and gets 4

***Note-** All the persons throw a dice in a serial way as given above.

(ex- First T draws then U throwso on.....)

Q121. The number of steps gap between U and S?

- (a) 9
- (b) 8**
- (c) 12
- (d) 17
- (e) 13

Q122. How many steps are behind T after the rearrangement?

- (a) 21**
- (b) 24
- (c) 34
- (d) 27
- (e) 26

Q123. What is the sum of the number of steps of R and T after the rearrangement?

- (a) 34
- (b) 47
- (c) 41
- (d) 48

(e) None of these

Q124. Who among the following is behind to all in the re arrangement?

- (a) U
- (b) R
- (c) Q
- (d) T**

(e) None of these

Q125. How many persons stay in between Q and R in the initial arrangement?

(a) One

- (b) None
- (c) Two
- (d) Three
- (e) None of these

Q126. If we form a meaningful word by the first, second, fourth and ninth letter of the word 'MANIPULATED', then which of the following will be the first letter of the word thus formed? If more than one word is formed mark Y as your answer. If no meaningful word is formed, mark X as your answer.

- (a) Y
- (b) X**
- (c) A
- (d) T
- (e) M

Directions (127-130): Study the information carefully and answer the questions given below.

Ten persons A, B, C, D, E, F, G, H, I and J sit around a circular table facing the center but not necessarily in the same order. No immediate neighbour sits according to the alphabetical order like- A does not sit near B and B does not sit near A and C and so on. D sits 3rd to the right of H. One person sits between E and D. Two persons sit between C and E. One person sits between G and F. Both E and G are not an immediate neighbour to each other. Both I and C are immediate neighbours. F sits 2nd to the right of A. J does not sit 4th to the left of B.

Q127. If A and G interchanged their positions then, who among the following sits 3rd to the left of G?

- (a) H
- (b) J**
- (c) D
- (d) F
- (e) None of these

Q128. How many persons sits between C and H when counted to the left of C?

- (a) More than five
- (b) As many persons sit between F and C
- (c) Three
- (d) As many persons sit between D and E, when counted to the left of E
- (e) Both (a) and (d)**

Q129. Which of the following statement is true?

(a) I sits 5th right of A

- (b) J sits 2nd to the right of E
- (c) A is not an immediate neighbour of D
- (d) B sits 3rd to the right of C
- (e) All are true

Q130. If all the persons sit according to the alphabetical order in clockwise direction from A then, how many persons remain the same position (excluding A)?

(a) One

- (b) More than three
- (c) Two
- (d) None
- (e) Three

Directions (131-132): Amid mounting pressure over the Centre to postpone the CBSE Board exams scheduled for next month, Prime Minister will hold a meeting with Education Minister and other important officials at 12 pm to discuss the issue. The government is likely to consider postponing the exams as Covid-19 cases continue to rise across states. Several state governments and Opposition leaders such as Arvind Kejriwal and Rahul Gandhi have been appealing to the Centre to postpone board exams.

Q131. Which of the following substantiates the demand raised by Opposition leaders?

- (I) Several crowded markets in many states have been closed after Covid-19 guidelines.
- (II) Many state governments have postponed the state board exams for X and XII classes as cases of Covid19 continue to rise.
- (III) Cases has been rising but elections in many states are conducted.

- (a) Only II and III
- (b) Only III

(c) Only I and II

- (d) Only I and III

(e) All of three

Q132. What may be the repercussions if board exam will be conducted?

- (I) Many students may get infected and this will be tough situation for government to handle.
- (II) Every student will get good marks and they will move ahead in academic.
- (III) There may be sudden rise in number of cases of Covid-19.

(a) Only II and III

(b) Only I and III

- (c) Only II
- (d) Only I and II
- (e) All of three

Directions (133-137): Study the information carefully and answer the questions given below. Eight boxes A, B, C, D, E, F, G and H are arranged one above the other but not necessarily in the same order. Each of the box has same height of 2 inch. Different number of books are in each box- 12, 13, 14, 15, 17, 18, 21 and 28 but not necessarily in the same order. Two boxes gap between D and E and in both boxes the difference of number of books are 4. Box A is placed two places below the box which has 21 books. Box A is placed just above the box D. Box B is placed just above the box which has 13 books. Box B contains 17 books. The box which has 15 books is placed just below box H and just above the box which has 14 books. Box F is placed two places above the box which has 12 books. Box C contain the number of books which is a multiple of 7 but not placed at the topmost position.

Q133. How many boxes are placed between box B and the box which is placed just above box H?

(a) Three

- (b) More than three
- (c) Two
- (d) One
- (e) None

(d) 13

(e) None of these

Q135. Four of the following five are alike in a certain way and so form a group. Find the one which does not belong to that group?

(a) F-21

(b) H-15

(c) B-17

(d) G-18

(e) D-17

Q136. The number of boxes placed between A and G is same as the number of boxes placed between _____ and _____

(a) H, B

(b) D, H

(c) F, H

(d) G, E

(e) None of these

Q137. What is the sum of the number of books in box G and H?

(a) 30

(b) 49

(c) 25

(d) 27

(e) 33

Directions (138-140): Study the information carefully and answer the questions given below.

Seven members M, P, Q, R, S, T and U are living in the family in which two married couples and arranged in descending order from left according to their age but not necessarily in the same order. The one who is 36 years old is married with P who is the son of T's father's wife M. R is 54 years old and younger to only M. U is sister of Q who is not elder to U. S is sister-in-

law of U's uncle. The number of males in the family is more than the number of females. T is just older to U who is 20 years younger to S. Q's father is just younger to the one who is 54 years old.

Q138. How many persons are older to the one who is daughter in law of R?

(a) One

(b) None

(c) Three

(d) More than four

(e) Two

Q139. Find the average age of R and the one who is just younger to P?

(a) 45 years

(b) 26 years

(c) 35 years

(d) Can't be determined

(e) None of these

Q140. How many persons are older and younger to T's brother respectively?

(a) 3, 3

(b) 1, 5

(c) 2, 4

(d) 5, 1

(e) None of these
