Chapter – 07

Terminology & Biotechniques

1. Bee-keeping is known as

- (A) Sericulture (B) Apiculture
(C) Aquaculture (D) Agriculture

2. Which one of the following is related to silviculture?

- (A) Culture of Hilsa
(B) Culture of silver carp
(C) Culture of oil-producing plants
(D) Forest crops

3. The duration of 19-21 days refers to-

- (A) Incubation period of hen's egg
(B) Average life-span of a red blood cell in humans
(C) The period of menstrual cycle soon after menstruation, during which fertilisation is most likely to occur
(D) Period of completion of one schizogony cycle of malarial parasite inside a red blood cell

4. A potato tuber has been cut into two halves. A few drops of iodine solution are placed on the cut surface of one of the halves. What colour change will be noticed?

- (A) From brown to blue-black
(B) From brown to orange-red
(C) From blue to pink
(D) From pink to blue-green

5. The medical term used for the sleeplessness is-

- (A) Somnambulism (B) Insomnia
(C) Hallucination (D) Nyctinuria

6. The science dealing with the study of teeth is-

- (A) Odontology (B) Ornithology
(C) Phenology (D) Cosmology

7. The Study of newly born up to the age of 3 months is called

- (A) Chorology (B) Conchology
(C) Nematology (D) Neonatology

8. The study of visceral organs is-

- (A) Angiology (B) Arthrology
(C) Anthology (D) Splanchnology

9. What is an Endoscope?

- (A) It is an optical instrument used to see inside the alimentary canal
(B) It is a device which is fitted on the chest of the patient to regularise the irregular heart beats
(C) It is an instrument used for Examining ear disorders
(D) It is an instrument for recording electrical signals produced by human muscles

10. The Substances which are used to bring down the temperature in high fever condition are called-

- (A) Antiseptics (B) Pyretics
(C) Antipyretics (D) Antibiotics

11. The first effective vaccine against polio was prepared by

- (A) JH Gibbon (B) Jonas E Salk
(C) Robert Edwards (D) James Simpson

12. The expansion for AIDS is

- (A) Active Immune Deficiency Syndrome
(B) Acquired Individual Disease Syndrome
(C) Acquired Immune Deficiency Syndrome
(D) Acquired Immune Disease Syndrome

13. The H5N virus which causes bird flu was first discovered in

- (A) 1991 (B) 1995
(C) 1997 (D) 2001

14. Radioimmunoassay (RIA) is a therapy used-

- (A) To cure lung cancer
(B) To cure AIDS
(C) To cure fractures in bones
(D) To detect antibodies and hormones present in the blood samples

15. MRI stands for

- (A) Metered Resonance Imaging
(B) Magnetic Resonance Imaging
(C) Magnetic Reaction Imaging
(D) Metered Reaction Imaging

16. 'Jonas Salk' invented the vaccine for-

- (A) Polio (B) Hepatitis
(C) Typhoid (D) Cholera

17. The Full form of the infectious diseases SARS is

- (A) Syndrome Associated with Respiratory Symptoms
(B) Severe Acute Respiratory Syndrome
(C) Severe Asthmatic Respiratory Syndrome
(D) Syndrome Alarm on Respiratory System

18. The Founder of homeopathy is-

- (A) Samuel Hahnemann (B) Hippocrates
(C) Charaka (D) Sushruta

19. Edward Jenner is associated with-

- (A) Cholera (B) Typhoid
(C) Smallpox (D) Paralysis

20. The branch of agriculture which deals with the feeding, shelter, health and breeding of the domestic animals is called

- (A) Dairy science (B) Veterinary science
(C) Poultry (D) Animal husbandry

21. Which of these is produced by a mould?

- (A) Chloroform (B) Glycerine
(C) Penicillin (D) Quinine

22. Total interacting and animals and plants in any well defined area is known as

- (A) Population (B) Biome
(C) Community (D) Species

23. Ultraviolet rays can be used in water treatment as

- (A) Precipitator (B) Hydrolyser
(C) Disinfectant (D) Flocculator

24. Toxicology is related to the study of-

- (A) Viruses (B) Bacteria
(C) Diseases (D) Poisons

25. Olive ridley is a famous

- (A) Cricketer
(B) Turtle species

(C) Grass type vegetation

(D) Another name for olive tree

26. The 'Theory of Evolution' was put forward by-

- (A) Louis Pasteur (B) Aristotle
(C) Gregor Mendel (D) Charles Darwin

27. Who is commonly known as "the Father of Microbiology"?

- (A) Robert Hooke
(B) Antonie Philips van Leeuwenhoek
(C) Carl Linnaeus
(D) Charles Darwin

28. A is species of plant the has adapted to survive in an environment with little liquid water.

- (A) xerophyte (B) hydrophyte
(C) Synecology (D) Glycerine

29. Which of the following branches deals with the interactions of same species of living organisms with their non-living environment?

- (A) Autecology (B) Synecology
(C) Ecology (D) Palaeontology

30. Entomology is the study of

- (A) Birds (B) Insects
(C) Fossils (D) Fungi

31. Myrmecology is study of

- (A) Insects (B) Ants
(C) Crustaceans (D) Arthropods

32. Exobiology is a science that deals with

- (A) extinct forms
(B) life in other planets
(C) life in the outer space
(D) life in marine habitat

33. Which of the following is used in the treatment of cancer?

- (A) Physiotherapy (B) Chemotherapy
(C) Electrotherapy (D) Psychotherapy
